PROFILE

I'm a skilled Mobile Developer with 5 years of experience specializing in Flutter hybrid app development. I've built apps across various domains with a strong focus on clean code, performance, and user experience. I prioritize client satisfaction, meet deadlines consistently, and maintain top-tier communication and code quality. If you're looking for a reliable, experienced Flutter developer committed to delivering results, I'm here to help.

PROJECTS

BuyerBoard

Flutter Mobile App (iOS & Android)

Flutter, BLoC, Firebase, REST APIs,
WebSockets, OneSignal

[App Store](#) | [Google Play](#)

A real estate collaboration platform for U.S. state buyers. The app allows contractors to list and manage buyers looking to rent or purchase homes. Contractors can also connect with other contractors to share buyer profiles and close deals faster.

INGAGE GG

Flutter Mobile App (iOS & Android)

Flutter, BLoC, Firebase, REST APIs, Push
Notification, Firebase Chatting, Stripe API

[App Store](#) | [Google Play](#)

An esports tournament management platform designed for games like Pokémon Unite. The app supports single and double elimination brackets, team creation, and seamless payment handling for tournament entries.

Raabta Social

Political Social Media App (iOS &
Android)

Flutter, Provider, Firebase, REST APIs,
Push Notification, WebSockets, Stripe API

[App Store](#)

An social media platform for **PTI (Pakistan Tehreek-e-Insaf)**, enabling supporters to stay updated with news, media, and campaigns. The app includes a feed for posts, video content, and engagement tools tailored for political outreach.

LinkOn

Social Media App (iOS & Android)

Flutter, Provider, Firebase, REST APIs,
Push Notification, WebSockets, Stripe API

[App Store](#)

A social media app connects users, enabling them to share updates, photos, and messages. It features a personalized feed, profile customization, integrated messaging for private and group chats, and tools for content discovery.

RevPay

RevPay-Katsina – Mobile App for
Revenue Collection

Flutter, RiverPood, Firebase, REST APIs,
Push Notification, Bluetooth Connection

[Google Play](#)

RevPay-Katsina is a government-backed mobile application that simplifies and digitizes revenue collection from commercial vehicle operators in Katsina State, Nigeria. It offers a secure, user-friendly platform for managing payments, improving transparency and operational efficiency.

Bracktix

Esports Tournament & Live Streaming App
(Android & iOS)

Flutter, BLoC, Firebase, REST APIs,
OneSignal, Stripe

[Google Play](#)

A complete esports solution that combines tournament management with live streaming features. Users can create teams, manage channels, host or join tournaments, and stream matches in real-time.

B2BNet

Business Networking & Communication App
(Android & iOS)

Flutter, BLoC, Firebase, REST APIs,

[App Store](#) | [Google Play](#)

A complete esports solution that combines tournament management with live streaming features. Users can create teams, manage channels, host or join tournaments, and stream matches in real-time.

Gocare

Doctor-Patient Consultation App (Android &
iOS)

Flutter, Provider, Firebase, Agora,
Flutterwave

[Google Play](#)

A telemedicine app enabling patients to consult with doctors via chat and video calls. The platform allows users to connect with healthcare professionals, schedule appointments, and receive virtual care.

SERA

E-commerce & Store Communication App (iOS
& Android)

Flutter, Bloc, Firebase, Real-time Chat,
Kuwait Payment Gateway

[App Store](#)

An e-commerce platform where stores can upload products, and users can browse, chat with sellers, and make purchases. The app supports real-time messaging and Kuwait-specific payment gateway integration for secure transactions.
